

FESPA World Wrap Masters Rules

The FESPA World Wrap Masters Series (WWMS) is a series of individual competitions held at various venues around the world, typically co-hosted with a FESPA regional print trade exhibition, and the series concludes with a WWMS Final at FESPA's large European exhibition, which sees the winners of the qualifying events compete for the world title.

Only winners of recognised national or regional WWM competitions can compete in the WWMS Final.

Official Competition Rules

1. Each competition round will be limited to 36 installers (the format may vary if uneven numbers of competitors are taking part).
2. Conduct yourself professionally and work safely at all times.*
3. Any competitor that cuts the paint, damages, or causes any article to catch on fire will be disqualified.
4. Bring all of your own tools (FESPA will take care of cleaning supplies, electricity for heat guns will be provided).
5. Competitors are to check in with contest officials 30 minutes prior to their match. If possible, pick up your show badge and locate the competition area the day before your first match. This will eliminate stress and help you be on time for your match.
6. Listen to the instructions and follow the directions of the judges and contest officials at all times.
7. Please do not engage the judges and contest officials in idle conversation or to discuss match results during show hours.
8. They are operating on a very tight schedule and must be allowed to do their jobs to keep the contest running smoothly and on time.
9. The decisions of the judges are final.
10. Failure to abide by the rules above is grounds for disqualification.
11. The organisers reserve the right to vary these conditions at any time.

*competitors are responsible for their own health and safety, including medical insurance. FESPA accepts no responsibility for injury or death etc etc [needs strengthening and tightening up – then to be included in registration, or arrival briefing waiver]

Official Judging Guidelines

The judging will be conducted by a panel of judges in a fair and impartial manner in accordance with the following:

1. The judges will use a scoring system designed to place high priority on quality.
2. Speed itself is not scored, but volume of work completed is a factor.
3. Each judge will individually inspect each vehicle and assign scores to each category that applies to that match round.
4. The total scores for each contestant will be averaged to determine the match winners.

5. In most matches, there will be a variance both in the quality and volume of work performed.
6. In those cases, the combination of our unique and in-depth scoring system and independent scoring and score averaging by the panel of judges will ensure fair and impartial results.
7. If all competitors in a match complete all of the work in the assigned time, the designated number of winners with the best quality will advance to the next round.
8. If by chance any competitors tie, the appointed Head Judge will have the casting vote.
